Clock Accessories - Timer Control Box

The Chronograph Timer Control Box allows the (V-D11040) 110VAC/24V Digital Clock to be used as a timer for sporting events, operating rooms, etc. The chronograph functions of the digital clock includes count up or count down modes in Hour:Minute (HH:MM) or Minute:Second (MM:SS) modes. Counter can be interrupted and resumed. The Chronograph Time Control Box allows the clock to resume time of day display when the chronograph function is not in use.
